

Physician Needed
Collingsworth General Hospital/Collingsworth Family Medicine

Collingsworth General Hospital (CGH) is currently looking for a physician interested in a Rural Family Medicine practice opportunity (NO OB). We offer a generous compensation and benefits package as well as loan repayment options. The hospital and clinic staff at CGH is dedicated to delivering high-quality healthcare and this close knit, family-friendly community has shown its commitment to having that same quality of healthcare available close to home.

In May 2008, the voters of Collingsworth County passed a \$5.5 million bond issue to build a 6,891 sq. ft. clinic that opened in January 2010. The bond funds also went to build an 11,857 sq. ft. in-patient hospital addition that includes 13 patient rooms, a nurses' station and state-of-the-art emergency department that opened in January 2011. The emergency department is a Level IV Trauma Center.

Our family practice physicians must be Board Certified or Board Eligible and are responsible for duties customarily performed by physicians, including but not limited to recording patient history and physical examinations; diagnoses; ordering diagnostic tests; prescribing medications and procedures; follow-up care; providing information regarding risks and available options for diagnoses and obtaining consent; maintaining patient records; supervision as appropriate of others involved in patients' care, and participation in quality assurance programs such as peer review and other programs as designated.

Emergency call is also required of our physicians. It is scheduled for physicians with active medical staff privileges either directly or by supervision of mid-level practitioners. Physicians are required to remain within 30 minutes of travel time to the hospital emergency room when on call.

For more information, contact Candy Powell at candypowell@collingsworthgeneral.net. (No recruiter calls, please.)
